Mohamed Riyaz Ahamed

Chennai, India | +91 89392 47622 | riyazahmedff@gmail.com
Portfolio: riyaz-portfolio-ai.vercel.app | GitHub: github.com/riyaz-ahamed-07 | LinkedIn: linkedin.com/in/riyaz

Education

Saveetha Engineering College — Chennai, India
B.Tech in Artificial Intelligence and Machine Learning | CGPA: 8.93/10 — *Expected May 2028*

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL
Frameworks: React, React Native, Node.js, Express.js, FastAPI, Spring Boot
Databases & Cloud: PostgreSQL, MySQL, Google Cloud Platform, Supabase, Vercel
AI/ML: LLM Integration, Prompt Engineering, RAG, Semantic Search, TensorFlow, Pandas
Other: Data Structures & Algorithms, OOP, REST APIs, Git/GitHub, Agile, Unit Testing

Experience

Full Stack Engineer — Mar 2026 – Present
Cradle Communities Inc. – Gatherly — *Remote*

- Shipped 40+ merged PRs (10k+ lines) across Gatherly's React Native app, Node.js backend, and marketing web.
- Built the backend listing comparison engine; implemented lease-based rent fallback and sqft-range filtering logic.
- Translated Figma designs into reusable, production-ready UI components for a live platform used across Canada.

Web Development Intern — Jul 2025 – Aug 2025
Altruisty Innovation Pvt Ltd – Portfolia — *Chennai, Tamil Nadu*

- Led full-stack development of Portfolia, an AI-powered portfolio builder that imports repos via GitHub API.
- Architected backend services with FastAPI, PostgreSQL, and SQLAlchemy to expose secure REST APIs for repo.
- Evaluated AI-generated output quality and built a React and TypeScript frontend with a dual-pane editor tool.

Projects

Voltify | *React, Node.js, PostgreSQL, LLMs* — Apr 2026 – Present

- Won 1st place at both the Energize 2026 and Byte Blaze National Hackathons; offered 2L equity by the judges.
- Built the AI energy platform with appliance-level bill estimation, forecasting, and usage anomaly detection tools.
- Integrated LLM-based bill OCR parsing with a rule-based fallback, then deployed with a full end-to-end test suite.

Offline Candidate Ranker | *Python, Sentence Transformers, PyTorch* — Jun 2026 – Jul 2026

- Built offline AI system that ranked 100,000+ candidate profiles via semantic search & scoring to find top matches.
- Engineered a six-stage pipeline combining transformer embeddings, behavior scoring, and anomaly detection.
- Ran fully offline and CPU-only, completing inference in 45 seconds using under 100MB of RAM, reproducibly.

Agentic Sales Intake Agent | *Spring Boot, React, PostgreSQL, RAG* — Mar 2026 – Apr 2026

- Built a full-stack AI sales qualification platform using RAG to retrieve case studies for each qualified prospect.
- Developed a scalable Spring Boot backend with REST APIs for conversation flow and lead qualification workflow.
- Integrated LLMs with semantic search and intent classification for real-time conversational replies via React app.

Certifications & Recognition

Oracle Certified Professional: Java SE 21 Developer (OCP) — Dec 2025
Oracle Cloud Infrastructure 2025 Certified Generative AI Professional — Oct 2025
1st Place – ENERGIZE 2026 Hackathon — Apr 2026
1st Place – Byte Blaze National Level Hackathon — Jun 2026
